Medical

TABLE OF CONTENTS

No. 1, January, 1955

Histochemical Demonstration of Noradrenaline and Adrenaline in the Adrenal Medulla. NILS-ÅKE HILLARP AND BERNT HÖKFELT 1

Flame Photometric Determination of Potassium in Microgram Quantities of Tissue and the Distribution of Potassium and Lipid in the Adrenal of the Monkey and Guinea Pig (Studies in Histochemistry XXXII). DAVID GLICK, RICHARD H. SWIGART, SOM N. NAYYAR, AND HELEN R. STECKLEIN 6

A Chemically Specific Double-Staining Technique for Desoxyribosenucleic Acid and Other Aldehyde-Yielding or Aldehyde-Containing Substances. EDWARD D. DELAMATER, MOSELIO SCHAECHTER, AND M. ELIZABETH HUNTER 16

Histochemical Demonstration of Acid Inorganic Polyphosphatase. GEORGE G. BERG 22

An Evaluation of Histochemical Methods for Protein Groups. M. S. BURSTONE 32

Distribution of Esterase in Epithelial and Lymphatic Tissues of the Rabbit Appendix. WILLIAM L. DOYLE AND R. L. LIEBELT 50

Quantitative Estimation of Succinic Dehydrogenase Activity in a Single Microscopic Tissue Section. VITTORIO DEFENDI AND BJARNE PEARSON .. 61

Book Review 70

Histochemical Titles from Current Literature 71

Announcement 73

No. 2, March, 1955

The Distribution of Phosphomonoesterases and Pyrophosphatase in the Particulate Fractions of Dog Cerebrum. NABIL WAKED AND STANLEY E. KERR 75

Aldehyde Formation in the Lipide Droplets of the Adrenal Cortex During Fixation, as Demonstrated Chemically and Histochemically. MANFRED L. KARNOVSKY AND HELEN WENDLER DEANE 85

Histochemical and Chemical Evidence for More than One Alkaline Phosphomonoesterase. MARIO H. BURGOS, HELEN WENDLER DEANE AND MANFRED L. KARNOVSKY 103

The Effects of Acids (Decalcifying Solutions) and Enzymes on the Histochemical Behavior of Bone and Cartilage. F. SCHAJOWICZ AND R. L. CABRINI 122

A Method for the Rapid Estimation of Whole Blood in Homogenized Tissue Preparations. MALCOLM W. GORDON AND JOHN I. NURNBERGER. 130

A Modification of Gomori's Method for Demonstration of Phosphamidase in Tissue Sections. JULIA MEYER AND P. J. WEINMANN 134

Comparative Histochemical Studies on *Coccidioides immitis* and *Haplosporangium parvum*. A. M. Breslau 141
Book Review 148
Histochemical Titles from Current Literature 149

No. 3, May, 1955

Histochemical Detection of Phosphorylase in Animal Tissues. Tadao Takeuchi and Hideo Kuriaki 153
Factors Affecting the Activity of Adenosine Triphosphatase and Other Phosphatases as Measured by Histochemical Techniques. Helen A. Padykula and Edith Herman 161
The Specificity of the Histochemical Method for Adenosine Triphosphatase. Helen A. Padykula and Edith Herman 170
The Reaction of Nucleoli with Ammoniacal Silver Nitrate in Darkness; Additional Data. C. J. Tandler 196
Significance of Coupling Rate in Histochemical Azo Dye Methods for Enzymes. V. Defendi and A. G. E. Pearse 203
Basophilic Chromidia and Mitochondria in Normal and in Tumor Tissue. Silviq Fiala, Edith E. Sproul, Martin E. Blutinger and Anna E. Fiala 212
The Metachromatic Staining Reaction. H. Kramer and G. M. Windrum 227
Histochemical Titles from Current Literature 238

No. 4, July, 1955

SYMPOSIUM: HISTOCHEMISTRY AND THE ELUCIDATION OF KIDNEY STRUCTURE AND FUNCTION

Applications of Histochemistry to Elucidation of Kidney Structure and Function (Historical Review). J. F. A. McManus 243
Histochemical Staining Reactions of Normally Functioning and Abnormal Kidney. Max Wachstein 246
Histochemical Studies on the Site of Action of the Mercurial Diuretics in the Kidney. A. Farah, E. Cafruny and H. DiStefano 271
Problems in Quantitating Renal Enzymes. J. B. Longley and R. C. Bahn 274
Histochemical Characteristics of Absorption Droplets in the Nephron. Jean Oliver, W. Straus, N. Kretchmer, and Yin-Chen Lee, H. W. Dickerman and Frances Cherot 277
Histochemical Demonstration of *in vivo* Localization of Antibodies: Antigenic Components of the Kidney and the Pathogenesis of Glomerulonephritis. R. C. Mellors 284
Cytochemical Changes During Normal Growth and Compensatory Hypertrophy of the Rat Kidney. N. B. Kurnick 290
The Fine Structure of the Kidney Seen by Electron Microscopy. Daniel Pease 295
The Fine Structure of the Renal Glomerulus of the Mouse. E. Yamada 309

Discussion of Ultramicroscopic Renal Structure. B. V. Hall 310
Histochemical Titles from Current Literature 313
Erratum 316
Book Reviews; Books Received 317
Constitution and Bylaws of the Histochemical Society 319
Membership of the Histochemical Society 1955 322

No. 5, September, 1955

The Value of Some Tetrazolium Salts as Histochemical Reagents for Sulphydryl Groups. G. H. Findlay 331
Dissimilarity in Alkaline Phosphatase Staining Reactions of Keratohyaline Granules. E. M. Nadel and I. Wodinsky 339
Histochemical Observations on the Harderian Gland of the Albino Mouse. Sidney A. Cohn 342
Cytophotometric Determination of Protein Bound Sulfhydryl Groups. E. J. Cafruny, H. S. DiStefano, and A. Farah 354
The Comparative Susceptibility to Collagenase and Trypsin of Collagen, Soluble Collagens and Renal Basement Membrane. E. Dresner and M. Schubert 360
Comparative Histochemical and Quantitative Study of Adrenal and Kidney Tissue by Tetrazolium Technique. J. Cascarano and B. W. Zweifach. 369
Proceedings of the Histochemical Society 382
Histochemical Titles from Current Literature 415
Book Reviews; Books Received 418
Letters to the Editor 419
Phosphorylase and conductive system of the heart. Luis M. Carbonell. . 419
Committee on Histochemical Reagents 420

No. 6, November, 1955

The Effect of Formalin on the Periodic Acid-Schiff Staining of Certain Types of Mucus. Arthus J. Hale 421
On the Histochemistry of the Hair, as Studied with the Peracetic Acid-Schiff Stain. G. H. Findlay 430
Uptake of Radioactive Sulfate by Arteries of Normal and Cholesterol-fed Rabbits. Robert C. Buck 435
On the Chemistry of the Thiocholine Method of Koelle. H. Malmgren and B. Sylvén 441
Histochemical Studies of the Olfactory Mucosa of the Rabbit. Betty J. Burkhardt and Harry C. Ehrmantraut 446
Studies on the Chemical Composition of Normal and Abnormal Blood Vessel Walls. 3. Low Angle X-ray Diffraction Studies on the Lipid Components in Atheromatous Plaques. J. B. Finean 449
The Basophilia of Melanins. R. D. Lillie 453
The Histochemical Demonstration of Acid Phosphatase by a Post Incubation Coupling Technique. Alexander M. Rutenburg and Arnold M. Seligman 455

Further Studies on the Histochemistry of Glucose-6-Phosphatase. A. Duncan Chiquoine 471
Histochemistry of Human Esterases. G. Gomori 479
Distribution of Amylophosphorylase in Various Tissues of Human and Mammalian Organs. Tadao Takeuchi, Kunihiro Higashi and Shenjiro Watanuki 485
Pitfalls in Histochemistry: an Unsuccessful Attempt to Demonstrate Mucoid Sulfatase in Mammalian Tissue. Claes-Henrik Dohlman and Jonas S. Friedenwald 492
Book Reviews; Books Received 495
Histochemical Titles from Current Literature 496
ndexes 500
